Sequence 109, Application US/09898779

Patent No. US20020166657A1

GENERAL INFORMATION:

APPLICANT: Maren T. Scheuner (Inventor)

APPLICANT: Hujving Yang (Inventor)

APPLICANT: Hujving Yang (Inventor)

APPLICANT: Hujving Yang (Inventor)

TITLE OF INVENTION: Genetic Test to Determine

TITLE OF INVENTION: Gonetic Test to Determine

TITLE OF INVENTION: No. US20020106657A1-responsiveness to Statin Drug Treatment CURRENT FELING NUMBER: US/09/898,779

CURRENT FILING DATE: 2001-07-03

PRIOR APPLICATION NUMBER: 09/347,114

PRIOR FILING DATE: 1999-07-02
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    Length 23;
                                                                                                                                                                                                                                                                                                                         Length 20;
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       APPLICANT: UCRDIN, ERIC
